

WhiteWall Booking Checkout Flow

Pricing

- Keep hourly pricing the same across all locations.
- Pricing structure does **not change** based on event vs non-event.

Powdersville Location – Booking Logic

No events at Taylors Mill at all. Make sure thats crystal clear during the checkout process. All event related items are specific to Powdersville location.

1 & 2. S

Question: ask this regardless of the session duration.

"Is this booking for an event? (If its not a photo or video shoot, its an event.)"

- ☐ Yes
- ☐ No

3. Participant Confirmation (Always Asked)

Regardless of what they selected above, the next required question should be:

Question:

"How many participants will be at your event?"

If this is NOT an event, type NA."

User must enter a response.

Purpose:

- Forces the user to confirm whether it truly is an event.

Logic:

- If they type **NA (or a variation like N/A)** → proceed normally.

- If they type a **number** but selected **No event**, the system should prompt them to **confirm that this IS an event**.

4. Event Follow-Up Questions

If the user confirms that it **is an event**, the following required questions appear.

Event Description

"What event are you hosting? Tell us about it."

Cleanup Confirmation

"Please leave the studio exactly how you found it. WhiteWall works best when everyone helps reset the space for the next booking (and there's almost always one right after yours). Please make sure to budget time at the end of your booking to clean and reset the studio."

☐ Yes

Capacity Notice

Text displayed:

If your event will have **more than 50 people**, you may continue the booking process normally, but a WhiteWall team member will follow up via email to verify the event.

Checkbox required:

☐ I have read and understand the above.

5. Self-Service Acknowledgement

Required checkbox:

☐ I acknowledge that this is a **fully self-service event space**.

There are **no employees on site**. Moving furniture, chairs, setup, teardown, and returning the studio to its original condition are **fully my responsibility**.

Add-Ons

Every add-on option should include a **photo for visual reference** in the booking interface.

Examples:

- Backdrops
- Rolling walls
- Lighting
- TV
- PA System

Backdrops

Available at **both Taylors Mill and Powdersville**.

Options:

- **\$50 – All Backdrops (recommended first option)**
- **\$15 – Single Backdrop**

Users can select **multiple colors**.

Add this somewhere. Maybe a check box acknowledging it? Idk

Our paper backdrops are shared between sessions, so please only roll down what you need for your shoot—we try to maximize the life of each backdrop, and brand-new backup rolls are available if the current one has reached its end.
