SETUP CREW

This is the event-only Studio Setup Crew add-on.

LINE ITEM	EXPLANATION	PRICE
Studio Setup Crew	Our crew tears down the existing studio floor plan, moves anything you do not want visible out of the way or into the storage building, places your rented event assets in the middle of the space before you arrive so everything is ready to use, and handles the full post-event reset. We will bring any included tables, chairs, PA system, TV, and other rented assets into the middle of the studio on the dollies and remove the straps so everything is completely ready to go. You can walk in and immediately grab the first chair off the top of the rack. This does not include designing or placing your final floor plan. We are not physically taking chairs off the dolly and setting them up in your room layout. You will place the chairs, tables, and other items exactly where you want them. When your booking is finished, you can leave the chairs and items exactly where they are on the ground, and our crew will pack everything back up and reset the space.	\$750.00
