

WhiteWall Site Revisions — Status Checklist

Source: “WhiteWall Site Review — Cleaned Version” PDF from Drew

Home Page — NEW

- ☒ **Video hero homepage** — Full-screen silent looping video with “WhiteWall Studios and Events” + “Book Now” button. Uses Powdersville Tour Video converted to MP4.

Home Page — CURRENT

Mobile Layout

- ☒ Add divider between the two location options that says “Choose Your Location”
- ☒ Change button text to “Powdersville Location”
- ☒ Change button text to “Taylors Mill Location”

From Our Studios Section — Photo Gallery

- ☒ Photos appear in completely random order (Fisher-Yates shuffle)
- ☒ Include all photos from the old website gallery (Taylors Mill)
- ☒ Include all photos from Google Drive for Powdersville

Location Labels

- ☒ Every photo has a faint label in the top left corner indicating the location

Photo Behavior

- ☒ Clicking a Taylors Mill photo sends user to the Taylors Mill page
- ☒ Clicking a Powdersville photo sends user to the Powdersville page

Gallery Tabs (gallery.html)

- ☒ All Tab: show all photos from both locations
- ☒ All Tab: include faint location labels
- ☒ All Tab: all photos remain clickable to location pages
- ☒ Powdersville Tab: show only Powdersville photos
- ☒ Taylors Mill Tab: show only Taylors Mill photos
- ☒ Random display order (Fisher-Yates shuffle)
- ☒ Include literally every photo we have — added 37 missing photos (12 PV, 25 TM)

Google Reviews Carousel

- ☒ Carousel section exists under the gallery on the home page
- ☒ Mix reviews from both TM and PV locations
- ☒ 5-star reviews only display
- ☒ Reviews are real — 8 curated 5-star Google reviews from TM (PV has no Google reviews yet)

Powdersville Location Page

Host Your Next Event Section

- ☒ Replace “Brand Activations” with “Workout Classes”

Overall Tone Reminder

- ☒ PV should feel like the “no-brainer option” — Updated hero subtitle, about section copy, and feature descriptions to subtly position PV as the obvious choice
-

Powdersville — Booking Tab

Pricing

- ☒ Pricing directly on the duration bubbles

Booking Steps

- ☒ Move Schedule to Step 2
- ☒ Everything else shifts down
- ☒ Add-ons remain last (Step 5)

Time Options

- ☒ 1 hour says “(Not eligible for events)”

Booking Flow Logic — Booking Type Selection

- ☒ Photo/Video Session and Event Booking bubbles appear for every session including 1-hour
- ☒ If user selects Event Booking after choosing 1 hour: shake the screen
- ☒ Display popup message for 5 seconds: “Event bookings are only for 2+ hour sessions. Select a longer duration of time.”

Event Eligibility

- ☒ Events allowed for 2-hour sessions and longer
 - ☒ Clarification text at top of event step: “Events are allowed for 2-hour sessions and longer.”
-

Participant Count Field

- ☒ Label changed to: “Event? How many people will you have? If not an event, leave blank.”
 - ☒ Keep existing protocol for 50+ people (warning popup)
 - ☒ Fix digit-blocking bug (typing stops after first digit) — uses targeted DOM update instead of full re-render
-

Intake Form Logic

Participant Threshold Rules

- ☒ If over 50 people: trigger the existing popup warning
 - ☒ If over 25 people: require a text box entry asking them to explain the shoot
 - ☒ Text says: “Tell us more about your shoot. A cleaning fee may be added due to the high traffic count...”
 - ☒ Both conditions notify the owners (via Resend email)
-

Email Importance Acknowledgment

- ☒ User must type their name to acknowledge (similar to signing the waiver)
- ☒ Text matches PDF: “An email will be automatically emailed to you immediately after you book this session...”
- ☒ E-sign prompt: “Please acknowledge you have fully read this statement by e-signing your first and last name here.”
- ☒ Present on both PV and TM booking pages

Additional Form Changes

- ☒ Instagram is a required field
-

Terms and Conditions

- ☒ Require users to type their name and sign (not a checkbox)
 - ☒ Clause #1 changed to full liability acknowledgment text from PDF
 - ☒ Clause #4 cleaning fee changed to \$200
 - ☒ TM T&C: “Events are not allowed at this location” added
 - ☒ TM T&C: copy PV structure, remove event language
-

Waiver

- ☒ Replace waiver with new copy from the end of the PDF
 - ☒ Applies to both Taylors Mill and Powdersville
 - ☒ Uses “Renter” and “My Party” terminology (verbatim from PDF)
 - ☒ 10 sections with bulleted lists where specified
 - ☒ TM waiver: remove event language, state “Events are not allowed at this location”
-

Powdersville — Add-Ons

Backdrops

- ☒ Same structure on both locations

- ☐ “Add All Backdrops” option uses photo showing all backdrops from Google Drive — *Photo exists at client/photos/Final Content Organized/Backdrops/All Backdrops.png, needs to be copied to images/ and referenced in config*

Lighting Rental

- ☒ Description updated
- ☒ Carousel-style “Add to Booking” card with image preview — Toggle add-ons now render as carousel cards

Rolling Walls

- ☒ Wall 1: Layered, Hallowed, Squared Arch
- ☒ Wall 2: Small Shelves
- ☒ Wall 3: Layered, Curved Arch
- ☒ Wall 4: Picture Frame
- ☒ Wall 5: Three Simple Walls — Increasing Plain Arch Pack
- ☐ Main thumbnail changed to photo showing all rolling walls — *Photos available in client/photos/Final Content Organized/Rolling Walls/*

White Banquet Chairs

- ☒ Keep large main photo
- ☒ Carousel options: 25/50/75/100 chairs (tier type in config)
- ☐ Use multiple photos from Google Drive (chairs on dolly, individual chairs) — *Photos available in client/photos/Final Content Organized/Chair Rental/*

8ft Fold Out Tables

- ☒ Renamed from “8ft Folding Tables” to “8ft Fold Out Tables”
- ☒ Description: “Tables are one solid structure with no crease in the middle. The legs simply fold out.”
- ☒ “All 10 tables” option added
- ☐ Use a plain table photo from Google Drive — *Photos available in client/photos/Final Content Organized/Table Rental/*

TV Rental

- ☒ Description: “4K smart TV with every HDMI connecting cable imaginable.”
- ☐ Use a wide photo — *Photos available in client/photos/Final Content Organized/TV Rental/*

PA System

- ☒ Description: “Large speaker with aux cable to connect to any phone, with wired microphone and stand.”
- ☐ Use the photo with Drew holding the microphone — *Photos available in client/photos/Final Content Organized/PA System Rental/*

Taylors Mill Page

Tone Reminder

- ☒ PV should feel like the “clear upgrade” without trashing TM — Handled via comparison chart + “Switch to Powdersville” CTA + PV tone pass

Keep In Mind Section

- ☒ Section titled “Keep In Mind” with bubble-style points
- ☒ Studio is located within an old mill
- ☒ Parking lot is about a 2 minute walk
- ☒ No ensuite bathroom
- ☒ Shared bathroom down the hall
- ☒ No running water
- ☒ No garage door / pull-up access
- ☒ Located inside a large shared building
- ☒ Glass front door
- ☒ Not ideal for private shoots
- ☒ 1,000 sq ft vs 2,000 sq ft (Powdersville)
- ☒ 20 minutes from downtown Greenville vs 15 minutes

Possible Additions (Drew said “possible”)

- ☒ Toggle to Powdersville location — “Switch to Powdersville” CTA
 - ☒ Note explaining Powdersville solved these inconveniences
 - ☒ Side-by-side comparison chart
-

Taylors Mill — Booking Tab

Timing

- ☒ Move Schedule to Section 2
- ☒ Red bubble: “This location is not approved for events.”
- ☒ Half Day renamed to “4 hours”
- ☒ Full Day renamed to “12 hours”
- ☒ Pricing on each time option

Details

- ☒ Copy Powdersville adjustments (email ack, T&C minus events, waiver minus events)

Terms and Conditions

- ☒ Copy Powdersville structure but remove all event language
- ☒ Clearly state “events are not allowed at Taylors Mill”

Waiver

- ☒ Same waiver but remove event language

- ☒ Clearly state “events are not allowed at this location”

Add-Ons

- ☒ Backdrops: same as Powdersville
 - ☒ Lighting Rental: same config as TM (already had lighting)
-

Owner Notification (not in PDF, discussed separately)

- ☒ Email notification via Resend for 25+ and 50+ participant bookings
 - ☒ High-traffic / capacity alert notes appended to Acuity appointment
 - ☒ Env vars set on Vercel (RESEND_API_KEY, NOTIFICATION_EMAIL)
 - ☒ Domain verified on Resend (whitewallstudios.co via GoDaddy auto-connect)
 - ☒ Test email sent and received
-

Summary

Done: 70 items Remaining: 5 items (all photo swaps from Google Drive)

Remaining items breakdown:

#	Item	Blocker
1	Backdrops — all-backdrops photo from Drive	Copy <code>client/photos/.../All Backdrops.png</code> to <code>images/</code> and update config
2	Rolling walls — main photo showing all walls	Identify photo in <code>client/photos/.../Rolling Walls/</code>
3	Chairs — dolly/individual photos	Photos in <code>client/photos/.../Chair Rental/</code>
4	Tables — plain table photo from Drive	Photos in <code>client/photos/.../Table Rental/</code>
5	TV/PA — specific photos from Drive	Photos in <code>client/photos/.../TV Rental/</code> and <code>PA System Rental/</code>

All 5 are “copy photo from `client/photos/` to `images/` and update config” — can be done in one commit.
